Our Vision

Located 11 kilometres from the centre of Lusaka, our health and wellness centre is surrounded by botanical gardens keeping us from the hustle and bustle of town. Our surroundings will put you at ease straightaway.

The Health and Wellness Centre is dedicated to offering a range of medical services embodying both physical and mental health through a multi-disciplinary team.

We are putting together a range of services that compliment each other. We have an on-site gym and swimming pool to compliment our medical services, along with short and long stay apartments to facilitate comfortable rehabilitation should a patient need it.
